How many members have not renewed this year?

- So far this year the following members have not yet renewed (exp.30/06/2018):
  - 185 Full members
  - 129 Associate members

**Total: 314**
Membership Update in detail

Country Distribution:

- Western Europe and the USA continue to dominate membership
- Sweden has overtaken UK into third position
- In total 42 countries are represented

- 5% of members come from countries that are not in the highest income class according to the World Bank scheme.
Administration and Finances
Society Administration

- Annual returns to Companies House, OSCR and Tax office have been submitted in time and approved. A copy of the latest annual return is available on the website as a DS document.

- A new independent examiner was appointed to prepare the accounts this year. Gillian has extensive experience working with Scottish charities. She identified changes which were required in the reporting of the accounts to meet new guidance.
Financial Report

- The DS is a Charitable Company. The financial year end is 30th June.
- All members receive a full financial summary at every General Meeting during ICED.
- For the DS accounts, we must record how much of our income is pre-paid income, due to multiple year membership payment (for taxation reasons). This pre-paid income must be recorded for the same year that it is intended.
Design Society Website
DS Website [Current status]

- Website v3.0 now fully up and running!
- Experiencing around 550 visits by around 400 people, per month
- Publications very popular, especially since Open Access
- Some enhancements still needed (see next slide)
- Need a campaign to encourage members to add jobs, news, events
- Thesis repository is popular (from a download perspective), but has stagnated (from an upload perspective)
DS Website [version 3.1]

• Tasks for v3.1:
  – Review of graphical expression
  – Enhance the calendar function
  – Enhance the members’ profile pages
  – Debugging of publications search
  – Automate the newsletter
  – SIG/Chapter subsites
• SIG/Chapter subsites: Domains registered

DS Website [version 3.1]

- SIG/Chapter subsites: first pilots
Experiments with SIG identities
SIG/Chapter subsites: tasks underway
  - Populate first pilots
  - Implement members’ profiles pages
  - Implement pre-filtered publications page for SIGs (using Boolean search filter, provided by all SIG Leaders)
  - Implement push-pull of events, news, job data, from main site*
  - Replicate to all SIGs/Chapters
  - Push for development up to ICED19!
ICED Website

• As of 2021, ICED will have a DS-hosted website
  – Good for inter/national bibliometric searching (fixed address & data)
  – Good for users
  – Good for cataloguing past conferences
  – Good for local organisers
  – Need to choose main address: [www.icedconference.org; iced.designsociety.org; www.icedXX.org]

• ICED21 hosts have agreed to collaborate on development
  – Same engine as DS website
  – Slightly different front-end template (extra payment required)
  – Many standardised items…
  – … but still space for “personalisation” (colours, logos, graphics, etc.)
  – Work has commenced: Will be ready for ICED19 last day!
DS Rigi Meeting 2019, Lecco, Italy, 22.3.2019

Publications
Design Science Journal

- Summary manuscript statistics to date (February 2019):
  - Submitted: 193
  - Published or in press: 71
  - In review: 40
- There are 12 current AB members serving on the DSJ editorial board (out of 32 total).
- Thematic Collections are becoming a successful strategy for paper submissions and for attracting authors outside the DS.
- Established new paper category on Design Practice Briefs.
- DSJ authorship and editorial membership remains much broader than the DS per se.
- Full ISI indexing still pending.
- Scopus indexing in place
Design Science Journal: Thematic Collections

• A collection of articles around a particular theme that appears in the journal, typically within a particular time period. Accepted articles submitted within the deadline go through production and are published online as usual (one at a time, so there is no delay), but they are identified and 'tagged' as belonging to that thematic collection and published also as a volume.

• A special roster of Guest Editors manages the manuscripts submitted in the collection. Manuscripts are reviewed as usual, see www.designsciencejournal.org/authors/. The Publisher creates a separate listing and dissemination plan for the collection.

• Five ongoing TCs:
  • Deep Learning for Design
  • Design Neurocognition: Understanding of Design Through Studies of the Brain
  • Lightweight Design in Product Development
  • The future of design cognition analysis
  • Design Research in Industry
Journal Agreements

• Goal
  – Focus the publication of DS community on a range of selected journals
  – Orient students and young researchers in the identification of reliable sources
  – Provide favourable conditions to DS members for journal subscriptions and OA publications

• DS endorsement to journals
  – DS provides visibility to established agreements on its website, newsletters etc.
  – Publisher offers a preferential discount to DS members for endorsed journal(s)

• Existing endorsement agreement with T&F and CUP
  – Journal of Engineering Design
  – Co-Design
  – Artificial Intelligence for Engineering Design, Analysis and Manufacturing
  – Research in Engineering Design (under negotiation with Springer UK)
  – Journal of Design Creativity and Innovation (under renewal with T&F)
CUP Proceedings of the Design Society

• Contract signed with CUP in December 2018 after a 3-year deliberation. Contract applies only to ICED.

• Goal and rationale
  – Higher recognition and scholarship, visibility and retrieval, reference linking
  – Gold Open Access
  – DOI indexing
  – Respond to strong desire echoed in the Members’ Survey
  – Reduce burden on ICED organizers

• More details in supplied events and publications document distributed.

• Contract is confidential but not secret. Available to the AB upon request to the President.
