All the papers submitted for the DESIGN 2014 conference have been reviewed by at least two members of the Scientific Advisory Board.

Authors were asked to submit manuscripts in electronic version. The layout, the figures and tables of some papers did not conform exactly to standard requirements. In some cases the layout of the manuscript has been redone. The readers are therefore asked to excuse any deficiencies, which may have arisen, from the above causes. If you have any difficulty interpreting the text or diagrams, please contact the author who supplied name and address at the end of the paper.
