Preface by the Programme Chair

We welcome you to the proceedings of arguably the biggest conference on engineering design: 19th International Conference on Engineering Design (ICED13) held in Sungkyunkwan University, Seoul, Korea!

This proceedings is a compilation of the 342 peer-reviewed and accepted papers submitted to ICED13. The proceedings is published in different forms: a book of abstracts, a soft-copy of proceedings on a USB-based memory device and a hard-copy of proceedings, which is available via a print-on-demand supplier. All these different forms of proceedings are numbered against both Design Society and ISSN referencing to allow wider access, better referencing and improved citation in the near and distant future. All the accepted papers are divided among the following 9 themes: Design Processes; Design Theory and Research Methodology; Design Organisation and Management; Products, Services and Systems Design; Design for X, Design to X; Design Information and Knowledge; Human Behaviour in Design; Design Education; and Design Methods and Tools. The hard-copy of the proceedings is in turn divided into 9 volumes where each volume comprises papers from a theme. All the accepted papers are presented in podium or discussion sessions in the conference. It is important to make it explicit that all the accepted papers have successfully cleared the criteria for acceptance in ICED13. The division into podium and discussion sessions is solely based on grouping similar papers so as to allow relevant, connected, lively and stimulating presentations and discussions. For this year's conference we have introduced a number of novel schemes to reduce the bureaucratic load for authors and organisers and, it is hoped, to increase the quality of the conference. To name a few: (i) automatic production of the cover page of papers based on title of paper, details of authors, abstract and list of keywords in the Conference Management System, (ii) electronic acceptance of terms and conditions in copyrights, (iii) feedback of acceptance and quality of reviews to reviewers from authors, etc.

This proceedings is a consequence of dedicated efforts of many people, namely, the authors, the reviewers, the chairs and associate chairs of the various themes, and the members of the Programme Committee. The Programme Chair on behalf of Programme Committee would like to acknowledge the contributions of: (a) Authors for submitting papers, (b) Reviewers for providing timely comments and feedbacks to improve the quality of papers, (c) Chairs and Associate Chairs of themes for assisting in selection of reviewers, providing directions for improvements to papers with the status of major revisions, and helping in the final decisions of papers.

We hope that you enjoy the programme of ICED13 as much as we have enjoyed creating and organising it.

Assistant Programme Chair

Preface by ICED13 Conference Chair

Welcome to the 19th International Conference on Engineering Design 2013 (ICED13), and its conference proceedings. The theme of ICED13, *Design for Harmonies*, is well reflected in the programme and papers of the conference. As design practice and research make progress, integration and incorporation of diverse viewpoints take more essential roles. ICED13 will make its mark in the history of ICED and the Design Society as an important cornerstone for harmonies in design.

Increasing numbers of presentations in topics like human behavior in design and product, service and systems design indicate that issues of harmonies of products and services and those of human-centered views and technology support are at the core of design research. With continued excellence in the topics of design methods and tools, design information and knowledge and design processes, strong research foundations of design have been confirmed in the programme. Presentations in design organisation and management, design for X, design to X, and design theory and research methodology also demonstrate the leadership of the Design Society community in these important issues. Design education is yet another important area where new needs and requirements appear as the roles of design become broader. As Seoul is the very first Asian city hosting ICED, more papers from Asian countries appear in ICED13. This reflects harmonies of East and West being strengthened in design research. ICED13 will make a good transition for drawing more such harmonies.

In addition to a technical programme of keynote, podium and discussion sessions, ICED13 has organized a few special events such as the Young Members Event. Ten selected presentations by young designers and design researchers will address the Future of Design. This event is open to the (young) public so that diverse harmonies can be achieved by the attendees. With opening and closing ceremonies and receptions as well as a conference banquet, diverse opportunities for cultural harmonies are prepared. For example, Korean traditional culture experiences are available for conference attendees and accompanying guests together with old Korean traditional buildings in order to draw harmonies from the Old and the New. The optional Gangnam-Style tour will introduce modern Korean culture as featured in the world hit music video.

We hope you enjoy ICED 13 and have the fun and excitement of Design for Harmonies.

Assistant Conference Chair

Preface by the Design Society President

The 2013 International Conference on Engineering Design (ICED) will be the nineteenth held since the conference series was inaugurated in 1981. It will also be the sixth held under the auspices of the Design Society, an international society founded in 2001 to develop an understanding of all aspects of design. The previous five conferences have been in Stockholm, Melbourne, Paris, Stanford (California) and Copenhagen, and by holding the conference in Asia for the first time it is surely established as a truly world-wide event. The 2013 conference continues the tradition of holding the conference in an exciting location with a vibrant design research community and for which design is important to local industry and commerce. Seoul is exceptional in this regard, the dynamic heart of the world's second largest metropolis whose success is built on great design and engineering.

ICED13 also continues the format, established in 2009 and continued in 2011, of a conference programme made up of plenary sessions, podium presentations, discussion sessions with focused debate and workshops led by the Design Society's Special Interest Groups. We hope that this varied programme, combined with extensive opportunities for networking, will provide an exciting opportunity for researchers and practitioners to learn about the latest developments in design research and practice.

Organising an international conference takes an enormous amount of work, and I would like to express the thanks of the Society to the great team that has worked over many months to make the Conference a success. Especially I would like to thank Yong Se Kim, Sang Won Lee and colleagues at Sungkyunkwan University for their great work in the Organising Committee, and Udo Lindemann, Srinivasan V and the Programme Committee for bringing together such an excellent programme. Of course, their work would be in vain without the fantastic contributions of the authors, reviewers, theme chairs and session chairs, and the thanks of the Society are due to all of them.

A handwritten signature in black ink, which appears to read "Chris McMahon".

Chris McMahon
Design Society President

ICED13 Programme Committee

Udo Lindemann – Programme Chair, Technical University of Munich, Germany

Srinivasan V – Assistant Programme Chair, Technical University of Munich, Germany

Panos Papalambros – Design Society Representative, University of Michigan, USA

Chris McMahon – Design Society Representative, University of Bristol, UK

Yong Se Kim – Organising Committee Representative, Sungkyunkwan University, Korea

Sang Won Lee – Organising Committee Representative, Sungkyunkwan University, Korea

ICED13 Organising Committee

Yong Se Kim – Conference Chair, Sungkyunkwan University, Korea

Sang Won Lee – Assistant Conference Chair, Sungkyunkwan University, Korea

Tom Howard – Technical University of Denmark, Denmark

Chris McMahon – University of Bristol, UK

Yoo Suk Hong – Seoul National University, Korea

Haeseong Jee – Hongik University, Korea

Jong Won Kim – Seoul National University, Korea

Kee-Ok Kim – Sungkyunkwan University, Korea

Myoun Kim – Sungkyunkwan University, Korea

Ji Hyun Lee – KAIST, Korea

Seong Il Lee – Sungkyunkwan University, Korea

ICED13 Theme Chairs

Design Processes

John Clarkson, University of Cambridge, UK
Gaetano Cascini, Politecnico di Milano, Italy

Design Theory and Research Methodology

Amaresh Chakrabarti, Indian Institute of Science, India
Yoram Reich, Tel Aviv University, Israel

Design Organisation and Management

Marco Cantamessa, Politecnico di Torino, Italy
Bernard Yannou, Ecole Centrale Paris, France

Products, Services and Systems Design

Olivier de Weck, Massachusetts Institute of Technology, USA
Yoo Suk Hong, Seoul National University, Korea

Design for X, Design to X

Tim McAlloone, Technical University of Denmark, Denmark
Sandro Wartzack, Friedrich-Alexander-University Erlangen-Nuremberg, Germany

Design Information and Knowledge

Andy Dong, The University of Sydney, Australia
Ying Liu, National University of Singapore, Singapore

Human Behaviour in Design

Petra Badke-Schaub, Delft University of Technology, The Netherlands
Keiichi Sato, Illinois Institute of Technology, USA

Design Education

Bill Ion, University of Strathclyde, UK
Johan Malmqvist, Chalmers University of Technology, Sweden

Design Methods and Tools

Panos Papalambros, University of Michigan, USA
Wei Chen, Northwestern University, USA

VOLUME 2: DESIGN THEORY AND RESEARCH METHODOLOGY

Rhetoric and design <i>Glenn Ballard, Lauri Koskela</i>	2-1
How design theories enable the design of generic technologies: Notion of generic concept and genericity improvement <i>Olga Kokshagina, Pascal Le Masson, Benoit Weil, Patrick Cogez</i>	2-11
The two pillars of design theory: Method of analysis and rhetoric <i>Lauri Jaakko Koskela, Glenn Ballard</i>	2-21
Beyond frames: A formal human-compatible representation of ideas in design using non-genetic ad-hoc and volatile class memberships and corresponding architecture for idea operators <i>Christos Spitas</i>	2-31
A bibliometric analysis of the DESIGN 2012 conference <i>Phillip Cash, Stanko Škec, Mario Štorga</i>	2-43
Structuring the process of design research - A necessary step towards ensuring scientific rigor <i>Imre Horvath, Els Du Bois</i>	2-53
Action research in practice <i>Romain Farel</i>	2-63
Towards a unified theory of properties in engineering design science <i>Seppo Suistoranta</i>	2-73
Modeling parameter analysis design moves with C-K theory <i>Ehud Kroll, Pascal Le Masson, Benoit Weil</i>	2-83
On the co-existence of FBS and TRIZ for simplifying design process in an iterative way <i>Davide Russo, Christian Spreafico, Stefano Duci</i>	2-93
Understanding fixation effects in creativity: A design-theory approach <i>Marine Agogue, Mathieu Cassotti</i>	2-103

On the effectiveness of experimenting with C-K theory in design education: Analysis of process methodology, results and main lessons drawn	2-113
<i>Philippe Michel Blanchard, Patrick Corsi, Hervé Christofol, Simon Richir</i>	
Investigating elementary design methods	2-123
<i>Sebastian Zier, Herbert Birkhofer</i>	
Development of the digital storage Fuon	2-133
<i>Hesamedin Ostad-Ahmad-Ghorabi, Thomas Schäfer, Alexander Spielauer, Gerold Aschinger, Daniel Collado-Ruiz</i>	
Effect of expectation on affective quality perception	2-143
<i>Hideyoshi Yanagisawa, Kenji Takatsuji, Natsu Mikami</i>	
Preliminary simulations of scale and value of legitimation in design practice	2-153
<i>Vishal Singh, John S Gero</i>	
Adapting the IFM framework to functional approaches across disciplines	2-163
<i>Boris Eisenbart, Kilian Gericke, Lucienne Blessing</i>	
Shaping the design research revolution	2-173
<i>Kees Dorst</i>	
Assessing design research quality: Investigating verification and validation criteria	2-183
<i>Marie-Anne Le Dain, Eric Blanco, Joshua David Summers</i>	
Sustainability, design and engineering values	2-193
<i>Paul Martin Winkelman</i>	
Using qualitative research methods in engineering design research	2-203
<i>Shanna Daly, Anna McGowan, Panos Papalambros</i>	
Potentials for realising a consistent transition between functional modelling with the IFM framework and early system simulation	2-213
<i>Boris Eisenbart, Fabio Dohr, Kilian Gericke, Michael Vielhaber, Lucienne Blessing</i>	
Function in Engineering: Benchmarking Representations and Models	2-223
<i>Joshua David Summers, Claudia Eckert, Ashok Goel</i>	
Beyond models and decisions: Situating design through generative functions	2-233
<i>Armand Hatchuel, Yoram Reich, Pascal Le Masson, Benoit Weil, Akin Kazakçi</i>
